President's Message

by Tom Burt

General Meetings

The Computer Club December General Membership Meeting will be held 7 PM Thursday, December 3rd, at Desert Vista. We will conduct the election for 2010 Board of Directors, followed by holiday entertainment and our usual holiday social with special holiday desserts.

As usual, to conduct club business, we need to turn out a voting quorum of 100.

Upcoming at our **January 7, 2010** meeting we will have a presentation on "Securing Your Data" by John Moxon of PC Laptops.

Membership

As of November 29, we have **1227** new or renewed members for 2009 and **359** for 2010. "**Early Bird**" rates for **2010** are now in effect. See the [Membership](#) page for full details.

Education Activities for December

We have a good line-up of classes, seminars and SIGs for December. See the [December calendar](#) as well as the Seminars, Classes, "SIGs" and "KKs" pages for full details. Our education program is one of the great benefits of belonging to the Club.

Lab News

We've completed installing Windows 7 Home Premium in Sun Virtual Box virtual machines on all of the lab's Vista PCs. We also completed setting up new Virtual Box virtual machines with Windows XP and MS Office 2003 and all the latest hot fixes. These upgrades allow users and students to seamlessly move between Windows Vista, Windows XP and Windows 7 without needing to reboot the PC.

Passing the Baton

This is my final President's Message. In 2010, Edith Einhorn will take my place as President. Please welcome her and give her your support. It's been a great two years. I feel we've achieved a lot. Many thanks to my colleagues on the Board and to all the volunteers who make our club work so well. I will still be around - on the Board as Vice President - and busy doing my other Club jobs as Membership Chair, Webmaster, Lab Director, SIG Leader, Seminar Presenter, Club Software Engineer, and all-around "Helping Hand".

To all of you – Have a safe and happy holiday season!

Ed Rogers	Howard Verne	Rich Walko

Board of Directors Actions

The Computer Club Board of Directors took the following actions on Wed. Nov. 11, 2009

Howard Verne made a motion that the 2010 Budget include \$900 for a base level Apple computer instead \$1400 for the Upgrade 2 Apple computer with a 27” screen. The motion was seconded by Irene Burt. It was decided to go through the proposed 2010 Budget before taking a vote. After reviewing the proposed budget, Rich Walko made a motion that the motion by Howard Verne be tabled at this time. The motion was seconded by Bruce La Follette and approved by the Board.

Bill Wilkinson made a motion that Howard Samsen be appointed as Greeter Coordinator. The motion was seconded by Ed Barkin and was approved by the Board by a unanimous vote.

General Membership Meeting

The Computer Club December General Membership Meeting will be held on Thursday, December 3rd, 7PM at Desert Vista. We have two important activities. (1) We will hold a brief Business Meeting to conduct the election of the 2010 Officers and Board Members. (2) We will have our Holiday Social featuring live entertainment and refreshments. For Club information go to <http://www.scs-cc.com/> , call Tom Burt, President at 341-7095 or email Tom at tburt@ieee.org.

Welcome New Members

Glen Black	Barbara Lawson
Monica Bonnem	Elliott Levy
Eunice Delling	Donna Maxin
Robert Doudera	Linda McMullin
Marge Geary	Terry McMullin
Joan Goode	Elizabeth Nelson
Annette Laracuente	Wanda Raggio
Hiram Laracuente	Robert Sylvester

November Meeting Raffle Winners

The following SCSCC members were **lucky prize winners** at the November 5 meeting raffle drawing:

Ruth Dodrill
Alden Barnes
Wendell Stants
Fern Chorna

December 2009 Calendars

To view the December calendars, click the following hyperlink:

http://www.scs-cc.com/Calendars/scscc_calendar_2009-dec.pdf

SPECIAL INTEREST GROUPS

Special Interest Groups (SIGs) provide a forum for general discussion on a specific computer related subject. Admission to all SIGs is on a first-come, first-seated basis and is subject to the maximum allowed by fire code regulations. All of the following meetings are held in the Classroom.

The <W> or <M> indicate whether a SIG would be of interest to *Windows* or *Macintosh* users.

Creative Graphics <W/M>

1st and 3rd Wednesday, 1:00 p.m. Dark in December

Mel Neiman (228-6727)

Featuring tips, tricks, demonstrations and giveaways with information on greeting cards, business cards, labels, simple desktop publishing, digital photo tips and using photos in your projects, creating slide show informational frames, using fonts and creating your own clipart from fonts, e-mail stationery and animated signatures, journaling, and scrapbooking using computers, new tools for publishing found in Printmaster.

Very basic photo imaging processing, using small utilities related to graphics, fonts and catalog.

Digital Media <W>

3rd Thursday, 9:00 a.m.

Tom Burt (341-7095)

The Digital Media SIG provides a forum for members interested in all aspects of computer-based digital sound and video to meet, discuss, and learn more about the topic. The SIG's target audience is intermediate to advanced digital media users, but all members are welcome.

Genealogy <W>

3rd Thursday, 1:00 p.m.

Charles Johnson (804-4943)

Genealogy is one of America's most popular and rewarding hobbies. Come; let us help you find your ancestors on the Internet. We will explore helpful, free, sites and assist you in building your family tree.

Hardware <W >

Every Tuesday, 1:00 p.m. to 4:00 p.m.

George Lobue (256-0822), Chuck Wolff (233-6634)

This SIG provides **club members only** with no cost assistance for those having upgrades and / or problems with their computers. Bring in only your PC tower and your problems. Our TECH team will give you our best effort. Be sure to mark your cables so you can re-connect when you get home.

Linux SIG

2nd Wednesday at 1:00 P.M. and 4th Wednesday at 9:00 A.M., in the Classroom

Sy Bensky (242-6695)

Apart from the fact that it's **freely** distributed, Linux's functionality, adaptability and robustness, have made it a main alternative to Microsoft's operating systems. IBM, Hewlett-Packard and other giants of the computing world have embraced Linux and support its ongoing development. More than a decade after its initial release, Linux is being adopted worldwide primarily as a server platform. Its use as a home and office desktop operating system is also on the rise. This Special Interest Group will investigate Linux's potentials and attributes.

The Gigabyte Gazette

Macintosh Users' Group <M>

2nd and 4th Tuesday, 6:30 p.m.

Rose Mary D'Aloisio (255-2813)

Bill Euler (233-2351)

This is for Macintosh users of all experience levels. We will have Q&A, so bring your questions and/or problems.

Photoshop <W>

2nd and 4th Wednesdays, 6:30 p.m.

David Alexman (341-6533) and Zoltan Steiner (256-1161)

This SIG will provide you with an overview of many of the basic elements found in both Adobe Photoshop and Adobe Photoshop Elements, two extraordinary photo retouching, image editing, and color painting software programs. The Adobe Photoshop programs offer the tools to get professional-quality results. If you wish to enhance your photographs, this SIG will be most helpful and of great value. This SIG's target audience is intermediate to advanced digital imaging users, but all members are welcome.

Sun City Wings <W/M>

3rd Saturday, 1:00 p.m.

Ted Wagner (256-4037)

Using Microsoft's Flight Simulator program, we fly all kinds of airplanes from the 1903 Wright Flyer to a 400-passenger 747 jet airliner. Even helicopters are available. You can learn to fly airplanes or you can just enjoy beautiful sceneries around the world. The unrestricted view from the cockpit is something to experience. Those simulator programs have gotten "as real as it gets". We have a lot of fun. Please join us and take a look into the world of Flying.

KAFFEE KLATCHES

Kaffee Klatches provide a forum for general discussion on all computer-related subjects. Admission to all Kaffee Klatches is on a first-come, first-seated basis and is subject to the maximum allowed by fire code regulations. All of the following meetings are held in the Classroom.

Beginners Kaffee Klatch <W/M>

Every Saturday, 9:00 a.m.

Bill Wilkinson (233-4977)

If you are a novice or near-beginner computer user, or if you just want some refresher information together with a refreshing cup of coffee, then jump-start or recharge your computing knowledge by attending the BKK sessions. At each session, attendees will explore from one to four topics of particular interest to beginners and near-beginners. The topics are always announced a couple of days in advance via e-mail to SCSCC members who have subscribed to the club's message board. Each topic is presented in a step-by-step manner and is supported by "how to" notes that can be easily and conveniently downloaded from the BKK web page. Following each "up front" presentation of one or more topics (approximately 60 minutes in duration), an informal open-ended Question and Answer period takes place for those who wish to participate, listen, reflect, or inquire.

Q&A Kaffee Klatch <W/M>

Every Monday at 8:30 a.m.

Helen Perryman (363-7760)

This is a Q&A meeting is designed for everyone to ask questions and exchange ideas in a friendly atmosphere. No one knows it all and no question is too "dumb". We learn from answers to others' questions. If you need help with a computing problem, this just might be where you find the answer. We're here and you'll get a warm welcome!

"Intermediate / Advanced" Kaffee Klatch <W/M>

Every Tuesday, 8:30 a.m.

Sy Bensky (242-6695)

This KK is aimed at intermediate and advanced users. However, all users are welcome. The KK discussions are not restricted to any one subject, but should be computer or technology related. We will try to help you keep your systems updated and provide some "tips and tricks". If you have a tip or information you would like to share, we encourage you to bring it in and share since the SCSCC is built on "neighbor helping neighbor". The fellowship is great, the coffee is good, and the education received from the KK attendees is priceless. If you are an intermediate or advanced user, stop by and have a cup of coffee with us

December 2009 Classes

Because there are a limited number of computer stations available for hands-on participation, pre-registration is necessary for all classes. See individual descriptions for details on how to register.

DECEMBER BOOT CAMP CLASS

Dates: December 8, 9, 10, 15, and 16, with each session scheduled from 1-4 P.M.

Dates for January Class: January 12, 13, 14, 19, 20, all from 1-4 P.M.

Lead instructor will be Bill Wilkinson

If you know of friends in the Sun City Summerlin community who may be interested in taking this class, would you let them know that this program is available? The class is designed to accommodate both the brand new computer user as well as the individual who would like to fill some gaps in his computer knowledge and experiences.

Registration Details:

To register or seek additional information, please telephone **Susie Scott at 242-9745 or 239-8986 (cell)**. She will arrange to register you and your friends for an upcoming class and collect the course fee.

Prerequisites: Must be a Club member (\$15 membership dues, good through 2010) and own a computer with the Microsoft WINDOWS XP or VISTA operating system installed. (Windows 7 will not be emphasized at this time.)

Class Fee: Fifteen dollars (\$15.00), which includes a 126-page participant's manual, a CD, and a portable flash drive.

Course Description:

Boot Camp is an introductory course designed for members who are new to computing and/or the Microsoft Windows operating system. It also serves as an excellent review for intermediate users who want to fill some gaps in their computer knowledge.

This hands-on class has a limited enrollment of 12 with each participant working at an individual computer station in the Computer Lab. A multi-member team of lead instructor and four coaches will provide step-by-step instruction that will include demonstrations, guided practice and individual coaching assistance.

Participants will be introduced to the basic vocabulary and concepts necessary to establish an understanding of Windows. They will be instructed in practical strategies for managing and organizing their own data files, will be introduced to important strategies for working successfully with word processing documents, email, and the Internet, and will learn how to read and write data from and to a compact disk and a portable thumb drive. Those participants who own a digital camera will enjoy a demonstration on how to copy and paste photos from the camera to their hard drive, utilizing their newly acquired skills of file management.

Win 7 Basics: Introduction to Windows 7
Tuesday, December 8 at 10:00 AM
Location: SCSCC Lab
Presenter: Howard Verne

This session is a basic survey of Microsoft's Windows 7 Operating System and is intended to give members who have just purchased a new computer with Windows 7 installed, or those who have upgraded from Vista to Windows 7, a way to jump start their knowledge of Microsoft's newest OS. This is your chance to get *hands on* instruction on Windows 7!

Prerequisite computer skills required to attend this course:

- Ability to use a mouse to open/close/minimize windows
- Ability to start a program (such as Internet Explorer)
- Basic understanding of files and folders

This hands-on class has a limited enrollment of 12 with each participant working at an individual computer station. A multi-member team of lead instructor and coaches will provide step-by-step instruction that will include demonstrations, guided practice and individual coaching assistance. There is no fee for this class.

Registration: To register, send an email with your first and last name, association number, and the words "**WINDOWS 7 BASICS**" in the body of your message to hverne@yahoo.com. *If, within 24 hours, you do not get a reply from Howard, please contact him at 363-5337.*

Handout: Can be found at <http://www.scs-cc.com/smnr/Win7Basic.pdf>.

Please print it out and bring it to class.

Advanced Windows 7
Monday, December 21 at 10:00 AM
Location: SCSCC Lab
Presenter: Howard Verne

This hands-on class has a limited enrollment of 12 with each participant working at an individual computer station. A multi-member team of lead instructor and coaches will provide step-by-step instruction that will include demonstrations, guided practice and individual coaching assistance. There is no fee for this class.

Prerequisites: Completion of *Windows7 Basics* class.

Registration: To register, send an email with your first and last name, association number, and the words “**ADVANCED Win7**” in the body of your message to hverne@yahoo.com. If you do not receive a reply from Howard within 24 hours, please contact him at 363-5337.

Handout: Can be found on the SCC Web Site. Please print it out and bring it to class.

December 2009 Seminars

No advanced registration is necessary for any of our seminars unless otherwise noted. Seating is on a “first-come, first-seated” basis.

Talk with a Computer Tech

Thursday, December 3 at 9:00 AM

Location: SCSCC Classroom

Presenter: Chuck Strickland

Members who subscribe to HelpingHandsOnline will recognize the name of the presenter of this seminar. He frequently takes the time to answer many of the questions posed by those who use our Q&A club Email help line. Others will recognize him as a professional technical support person who services computers and makes “house calls” to residents of Sun City. By attending this seminar, you will be able to get your computer questions answered free in a “face-to-face” meeting with a computing professional. Bring your notepad to the session so that you can make a record of his advice. Chuck will give priority to all questions that are submitted in advance of the seminar. Once he addresses those questions, then he will open the floor to a question and answer segment. Therefore, to guarantee that you will get an answer to your question, just send an Email message to: chuck@chuckstr89134.com.

How to Buy a Digital Camera

Monday, December 7 at 1:00 PM

Location: SCSCC Classroom

Presenter: Stu Gershon

The following topics will be addressed: History, Megapixels; Optical Zoom; Camera Use; Cameras and Computers; What to Buy; Where to Buy; and, How to Research. As always, there will be time for your questions!

Using the iPhone

Tuesday, December 8 at 10:30 AM

Location: SCSCC Classroom

Presenter: Zane Clark

This is a seminar for iPhone users to exchange tips, talk about their favorite apps, and learn from each other.

Researching Travel and Cruising Opportunities with Your Computer

Monday, December 14 at 1:00 PM

Location: SCSCC Classroom

Presenter: Harvey Lawrence

The Internet, your own private travel agent! While nothing compares to having a reliable and knowledgeable travel agent, this seminar will show club members the many websites available for gathering travel information and booking travel.

From finding the best seats available on a plane, seeing what meals on these planes are like (if they are available), seeing live video from cruise ships, beaches etc. to seeing what special prices are available. Included in this seminar is a website that tells in detail, the problems that have occurred on cruise ships—information to which you really would never have access. Very interesting information!! Additionally, you'll find out how to print your boarding pass in advance and save valuable time at the airport or cruise terminal.

Using the Public Library's Powerful Data Bases

Postponed until January

Location: SCSCC Classroom

Presenter: Zane Clark

The Clark County Public Library website has over 140 databases which you can search, ranging from thousands of full text periodicals and newspapers to auto repair manuals, and medical references. You can search the New York Times and Los Angeles Times for articles that go back over 100 years, or find a newspaper from your hometown. Your tax dollars pay for these databases so why not learn how to use them!

Zane's presenter's notes are available by clicking [HERE](http://scs-cc.com/smnr/LibraryDataBases.pdf).
(<http://scs-cc.com/smnr/LibraryDataBases.pdf>)

Gmail and Other Google Programs

Wednesday, December 16 at 9:00 AM

Location: SCSCC Classroom

Presenter: Pat Lemay

Gmail is a free, search-based webmail service that combines the best features of traditional email with Google's search technology. Gmail makes locating messages so easy that you'll never need to shuffle mail in your inbox again. Besides offering an entirely new way of reading and tracking messages, Gmail includes over **7.3 GB** of storage space -- and storage space is increasing daily. Email attachments open on their server which makes getting a virus almost impossible. Don't waste time with junk mail and unwanted messages. Gmail blocks spam before it gets to your inbox. If an unwanted message ever finds its way through, you can fight back by reporting it and help make their spam filters even better.

With a Gmail account, you have access to numerous other programs such as creating and storing documents, spreadsheets and photographs. The storage of your email, documents, spreadsheets, and photographs is on their server so you have access to your information from any computer by logging in with your user name and password. If your computer ever crashes, you will never lose your information since it is not stored on your hard drive.

Pat's presentation notes are available by clicking [HERE](#).

Introduction to Digital Photography

Monday, December 21 at 1:00 PM

Location: SCSCC Classroom

Presenter: Stu Gershon

We will define Digital Photography; Different Ways to Display Your Work;

Five Primary Rules of Digital Photography; How to transfer images from camera to computer; Organization of information; Basic Editing techniques; What to do with email attachments; How To Send and Receive Photos With Email; How to Install Picasa on Your Computer; and, What to buy and where to buy it.

Upgrading to Windows 7 - How to Succeed (Hopefully, Without Really Trying)

Thursday, December 31 at 9:00 AM

Location: SCSCC Classroom

Presenter: Tom Burt

Windows 7 is Microsoft's newest and, reportedly, best ever version of Windows. If you're thinking about moving to Windows 7, this 2 ½ hour seminar will give you lots of information about how to get from your current system to a working setup of Windows 7. We'll cover all the versions of Windows 7 available, doing clean installs and upgrade installs, how to do a clean install with an upgrade version, 32-bit vs. 64-bit Windows, upgrades from Windows XP and Windows Vista. We'll describe how to move your data, settings and even your programs from your old system to your new Windows 7. We'll include a page full of links to good articles about Windows 7. And, we'll also save a generous block of time for your questions.

Web Surfing
by Dick Kling

Changing The Present

ChangingThePresent.Org is a non-profit organization that enables people to give charitable presents on behalf of friends, family, newlyweds, and other lucky recipients. Browse through this refreshing website, where the many gift options include such noble presents as a donation to "Help Women Prisoners", "Save a Cloud Forest", and "Build a Water Pump".

<http://www.changingthepresent.org/>

Seafood Watch

Pescetarians, sushi lovers, and anyone else who regularly enjoys eating seafood will want to bookmark "Seafood Watch", an educational program from the Monterey Bay Aquarium. Visitors will find easily accessible information about the tough issues troubling our waters, the plight of endangered fish species, as well as useful "guides" to help you make responsible choices while grocery shopping and dining out.

<http://redirx.com/?0w9v>

Edward Hopper

This online exhibition, courtesy of the Museum of Fine Arts Boston, features a comprehensive collection of Hopper's work, including his most popular contributions to American Art. Visitors will find that they are immediately immersed in Hopper's world; the bittersweet silence, stoic solitude, and pedestrian beauty that endure as the artist's signature style.

<http://www.mfa.org/hopper/>

History of the American Circus

This cool site explores the first 150 years of the circus in America, its colorful history, rapid evolution, and overall impact on our nation's culture. Learn about the entrepreneurial pioneers behind the American Circus, including the 18th Century amateur horse shows of John Bill Ricketts, the legendary marketing genius of P.T. Barnum, and the "kings of the big top" known as The Ringling Bros.

<http://www.circusinamerica.org/public/welcome>

Secret Postcards

"Post Secret" is an extremely cool blog; a Web-based community art project where anonymous people from all over the world mail in their personal secrets on a single side of handcrafted postcards. Browse through the secrets of strangers, which vary from whimsical revelations to serious confessions, and are written on creative "postcards" including dollar bills, photos, paper plates and other homemade cards.

<http://postsecret.blogspot.com/>

The Mac Corner

by Ed Rogers

HAPPY HOLIDAYS! THE FOLLOWING CAN HELP KEEP YOU OCCUPIED IF YOU HAVE ANY QUIET TIME IN DECEMBER!

Challenging Game: Tilt the “floor” to roll a ball through an obstacle course before time runs out. Neverball is part puzzle game, part action game, and entirely a test of skill. Also found here is Neverputt, a hot-seat multiplayer miniature golf game using the physics and graphics of Neverball.
Download at: <http://tr.im/FkkU>

Sports Fan Widget: Keep an eye on your favorite sports teams - all the information you need in one single and small widget. Show the current scoreboard, full results from previous days, the upcoming schedule (game times are displayed in your local time), or current division and standings. The widget supports Baseball (MLB and minor leagues down to Class A), Basketball (NBA, WNBA, and Men's NCAA College), Football (NFL and NCAA College), and Hockey (NHL). You can open multiple instances of the widget to track different sports or teams - each instance of the widget will remember your selections.
Download at: <http://tr.im/Fkmf>

Capture Audio or Video: You can capture almost any audio and/or video stream with *iTube Grabber*. Most video streams are in Flash Video format and cannot be played by QuickTime by default. But *iTube Grabber* can automatically convert to several formats and presets (iPod, iPhone, MP4, MPEG,...). With the very intuitive user interface you can browse and capture with ease.
Download at: <http://tr.im/FkpS>

Add Preference Settings: *TinkerTool* is an application that gives you access to additional preference settings Apple has built into Mac OS X. This allows you to activate hidden features in the operating system and in some of the applications delivered with the system. All preference settings changed by *TinkerTool* can be reset to Apple's defaults, or to the state that existed before using the tool. No dangerous background processes are used for *TinkerTool's* operation.
Download at: <http://tr.im/FkqZ>

Securely Wipe Your Hard Drive: Here's an article describing how you can easily and securely wipe your hard drive: <http://tr.im/FkrO>. It covers four options: Don't Erase Data, Zero Out Data, 7-Pass Erase, and 35-Pass Erase.

The Gigabyte Gazette

Want to Create a Web Site?: *Joomla!* is a powerful Open Source Content Management System (CMS) for building web sites easily. It can deliver endless extensibility for publishing needs. *Joomla!* is different from the normal models for CMS and it's not complicated. *Joomla!* has been developed for everybody, and anybody can develop it further. Similarly to the Firefox browser, the core system can be extended via easily installable add-ons authored by the developer community. The comprehensive internationalization of *Joomla!* supports right to left languages (e.g. Hebrew or Arab) and extended character sets.
Download at: <http://tr.im/FktB>

System Monitor: *iStat* menus monitors your entire system right from your menubar, with eight separate and highly configurable menu extras. You'll always know exactly what's going on inside your Mac. You'll be able to view your CPU usage, memory usage, disk usage and activity, network monitors, the internal temperature of your Mac, fan speeds, bluetooth status, and more. All from the Apple Menubar.
Download at: <http://tr.im/Fkvx>

Find Software Alternatives: If you're dissatisfied with any program you currently use, check out <http://tr.im/FkxQ>. At the site you may find a free or less expensive alternative to many other programs. Alternatives are listed by popularity and with a link to the download site. Select the "Mac" tab at top right before doing your searches.

The Computer Club's Mac SIG meets the 2nd and 4th Tuesday of each month in the Classroom at 6:30 PM. (Note: Dark on 12/22). Come to learn, ask questions, and share ideas with fellow Mac users.
